

CLERK: The motion is: (read)

SPEAKER: Any further discussion? If not, Senator Keyes.

SENATOR KEYES: Yes, Mr. President. I hope that the closing and all remarks made are strictly upon the motion that's before the house and we do not as the last half, go into the legi--or the budget bill.

SPEAKER: Senator Carpenter, there's no, nobody else wants to speak on the subject. Those in favor of the motion vote aye. Those opposed vote nay. This is on Senator Chambers' motion, yes. Have you all voted? Clerk will record.

CLERK: 8 ayes, 29 nays, 12 not voting.

SPEAKER: The motion fails.

CLERK: Alright, now I have another motion, Mr. President (read).

SPEAKER: Chair recognizes Senator Chambers.

SENATOR CHAMBERS: Mr. President, this motion is made for the same purpose that the other one was made, to allow a crack in the dam which will allow us to do the thing that we are supposed to do as a legislative body. We have a fiscal responsibility as well as other types of responsibility and I think we are shirking it when we do not consider these bills that have gone through committees, have had public hearings, that have been opposed as well as endorsed by various groups throughout the State and I think that it is time for us now to do the thing that we know we're going to have to do. Therefore, I move for the acceptance of this motion which would allow the reading on final reading of any bill with a fiscal impact of less than \$5,000,000.

SPEAKER: Chair recognizes Senator Stahmer. Those in-- will you read the motion again--oh, Chair recognizes Senator Schmit.

SENATOR SCHMIT: (mike off)--Members of the Legislature. I'd like to ask Senator Marvel a question if he would yield please?

SPEAKER: Senator Marvel, will you yield?

SENATOR MARVEL: Yes sir.

SENATOR SCHMIT: Senator Marvel, I have two bills on final reading--235A and 254A. 254 was passed some time ago, that is the provision in the Environmental Control Council which provides for implementation of the removal of the Wyoming amendment. The Department will not be funded without that, that money. They will not be able to carry out the provisions of 254. Is there any reason why at this time the Governor could not indicate his feelings on those bills and if so, perhaps encourage their passage or could he introduce legislation at this time yet to take care of the deficiencies which we have there?

SENATOR MARVEL: I know of no motion in this Legislature, Senator Schmit, that prohibits him from introducing legislation of his own.

SENATOR SCHMIT: There is sufficient time for him to take care of that if he needs to?

SENATOR MARVEL: It depends. There is sufficient time
